

# Bring the blueprint to life!

You can view the 3D plans in a browser [here](#) or You can walk around the rooms with the help of your tablet (phone) by downloading the free Visoft AR application: [Android](#) [iOS](#)

1. Launch the application and allow it to take pictures.
2. Use the application to read below QR code on print or on another screen. Download the project found. Hold your phone in the direction of the floor plan and it will come to life in a few seconds.
3. Click the 1:1 button and follow the instructions. You'll find yourself in the room. Walk around physically and look around boldly everywhere. Take a peek under the couch too...
